(P.T.O.) For further details.

Requirements:

https://www.amplenote.com/bounty_plugins

 **Photo gallery**

Create a plugin that can take a markdown list of image+captions, and convert them into a gallery (full screen, full note window, or normal size) of pictures that can be browsed with left/right arrow, with captions to show each picture.

Add \$500 if it can also gather images from within a tag into a table of image links, so users can see a thumbnail of what images they've uploaded within a particular tag, and click a link to jump to the place in the document where that image was uploaded.

Bounty: \$1,250

Progress Notes: Nobody is known to be working on this as yet. If you are working on this and have a release date in mind, email us?
